

CEMEX Gypsum Export, located in Miami, FL, is staffed by an experienced team who are customer focused and dedicated to 100% customer satisfaction. We are experts at providing not only the proper logistics, but any construction materials you may need to build your project. Our strong partnerships with the leading manufacturers mean you can get the products you need on time and on budget.

We are proud to partner with the finest manufacturers of construction materials including drywall and cement board products and a full line of accessories from [National Gypsum](#), [Continental Building Products](#) and [Georgia-Pacific](#)

For Acoustical and a full line of insulation products we partner with [Certainteed](#) , [Knauf](#), [Johns-Manville](#). For your fastener needs we carry [Grabber products](#) and we're an authorized [Hilti](#) dealer. We can supply [Sequentia](#) for your FRP panel needs and we're proud to partner with [Steel-con](#), a Cemex/ArcelorMittal Steel joint venture and a leading manufacturer of steel framing and trusses manufactured to your exact specifications and of course [CEMEX](#) is one of the top building material manufacturing companies in the world. Our export division can provide world class Cemex products shipped directly to your port of call.

Our presence in Central and South America and the Caribbean assures our customers satisfaction. We also ship to Africa and the Middle-East. Our statewide presence in Florida allows us access to many different ports to best service your needs and save on your freight budget.
